

Lost or stolen iPad? No problem. Download **find my ipad** or **find my iphone** on your iPad.

Then, go to your iPad Settings>Mail, Contacts, Calendars, and choose iCloud.

Make sure that the Find My iPad app is turned on.

If your iPad is missing or stolen, go to [www.icloud.com](http://www.icloud.com). To log in you will use your Apple iTunes username (email) and password. Then you choose the app; then which device you want to find. (I have my iPad and iPhone on the account)

A map will show up telling you exactly where your device can be found.

Then, you can either play a loud annoying sound on your missing device (so you can find it or alarm the stealer), you can lock it, or you can erase the entire device.
