

Animoto

Make great videos with Animoto. Fast and easy tool you can use on your computer, tablet, or phone. The paid version gives you a 20-minute video with several templates, songs, and photos to use. You can upload short videos to your Animoto video. Anyone can use your Animoto link to view the video as Animoto stores them for you OR you can download them as well.

All those kiosk videos that Kim and I create are done on Animoto. You should do one for your program. We'll post it on Facebook for you and/or create a QR code for your classroom door so that people can see what goes on in there.

Did you know that Lake Tech has a paid version of Animoto for all instructors?

See me if you are interested in the access code and learning how to use it (simple....I promise). Please do not allow students to use this account.
