FOR IMMEDIATE RELEASE
June 29, 2018

REGISTRATION FOR FALL TERM – NOW OPEN

Eustis, FL, June 29, 2018— **Lake Technical College is now in Open Registration for the fall 2018 semester.** For the past five decades, Lake Tech has provided career and technical training to thousands of students in Lake County and our surrounding region. We have 30 career and technical programs to choose from, as well as, GED® prep courses and English language courses (ESOL). The first step for all programs is to complete the online application at www.laketechnology.org. Afterwards, individuals will need to come to the main campus in Eustis to take any applicable tests and to complete the registration process; more information about testing requirements can be found on our website. *Seats are limited in every program, so interested individuals should begin the process and stop by soon!*

This year, Lake Tech is excited to welcome students into **two new programs**: *CNC Production Specialist (Machining)* which is held in our state-of-the-art Center for Advanced Manufacturing during the day and *Baking and Pastry Making* which is an evening program; both courses are at our Eustis location. Furthermore, Lake Tech has expanded our GED® preparation and ESOL classes to public libraries, Goodwill, CareerSource Central Florida, LSSC Clermont, and other community buildings throughout Lake County.

Lake Technical College is a public, post-secondary institution whose mission is to be an integral component of the economic growth and development in our community by offering a variety of high quality career-training opportunities. Our faculty are experts in their industries and they thrive on launching their students into successful careers. Our programs are fast and affordable! Most programs are completed in approximately one year, thus the slogan, "Career in a Year." Tuition is based on \$2.88 per hour and financial aid is available to those who qualify.

For more information on any of our exciting programs, please visit www.laketechnology.org; to complete the FAFSA for financial aid, please visit <http://www.laketechnology.org/financial-aid/apply-for-financial-aid>. Summer Hours are Monday-Thursday, 7:30am-5:00pm. Lake Technical College will be closed from July 4-6 to celebrate the Independence Day holiday.

Lake Technical College is a public, post-secondary institution that offers high quality training for many promising careers. The main campus is located at 2001 Kurt St., Eustis. The Institute of Public Safety is located at 1565 Lane Park Cutoff, Tavares. Visit the website www.laketechnology.org, or call (352) 589-2250 for more information. "Like" Lake Tech on Facebook, www.facebook.com/laketechnology, or "follow" on Twitter at [http://twitter.com/LakeTechCenter](https://twitter.com/LakeTechCenter). If you would like more information about this topic, please contact Frazier, Kimberly at 352-589-2250 Ext. 1842 or email at frazierk@lake.k12.fl.us.
