MISSION STATEMENT

The mission of Lake Technical College is to be an integral component of the economic growth and development in our community by offering a variety of high quality career-training opportunities.

Lake Technical College does not discriminate on the basis of race, religion, color, national origin, gender, genetic information, age, pregnancy, disability, or marital status in its educational programs, services or activities, or in its hiring or employment practices. INTRODUCTION

The Criminal Justice training programs provide the education and basic skills development necessary for individuals seeking a career as a Law Enforcement or Correctional Officer to meet state requirements and standards for certification and career.

The programs consist of a series of blocks or courses mandated by the Florida Criminal Justice Standards and Training Commission (CJSTC). All recruits must complete or have completed all the blocks or courses for each discipline to satisfactorily complete the program. The 24-hour Law Enforcement Officer Capstone and the 12-hour Correctional Officer test prep classes are for State test preparation. Attendance and course requirements are the same as Florida Law Enforcement Academy and Correctional Officer (B RTP) programs.

Upon completion of the required courses and end-of-block examinations, the recruits must successfully pass a state examination. Successful passing of the state examination will make the candidate eligible for state certification that is activated when the candidate is employed by a state certified law enforcement/correctional agency. Candidate eligibility for certification extends for a period of four years from passage of the state examination.

Failure of a recruit to pass a particular required course may not, in certain instances, prevent the recruit from continuing in the program. The recruit, however, must successfully pass any failed course before receiving the Certificate of course completion that is required before being eligible to take the state exam.

VALUE STATEMENTS

- ✓ To provide uniform, job related, performance-oriented training for all recruits and officers in a manner that is flexible and responsive to agency and community needs.
- ✓ To identify, pursue, manage, and maximize all available resources to best meet the needs of all individuals and agencies served.
- ✓ To anticipate and actively plan for the changing training needs of individuals and agencies served.
- ✓ To strongly encourage professionalism of officers and agencies by actively promoting the accomplishment of training and education.

ADMISSION CRITERIA

Law Enforcement Officer and Correctional Officer Basic Recruit Training Applicants

To apply for admission into the Law Enforcement/Correctional Officer Training Program, each applicant must:

- ✓ Be at least 18 years of age by the first day of class (**must be 19 to be eligible for State Exam**).
- ✓ Be a citizen of the United States.
- ✓ Be a high school graduate or have earned its equivalent (GED).
- ✓ Be of a good moral character.

Conditional admission to the program will be based on the following:

A score of 70 or above for Law Enforcement and 70 or above for Corrections is required for acceptance in the respective program. Only those with qualifying CJBAT scores may obtain an application and proceed.
- ✓ Completion of the program application. Applications may be picked up at the LTC Institute of Public Safety, 1565 Lane Park Cutoff Rd., Tavares, FL, 32778, or at the LTC main campus, 2001 Kurt Street, Eustis, FL, 32726. Phone for information: 352.589.2250 or 352.742.6463.
- ✓ Completion of form (part of application) for applicant's Florida driving history and payment of the processing fee.

Special Note Regarding Driving Violations & Arrests

Lake Technical College Institute of Public Safety Advisory Committee members (i.e. employing agencies) have agreed that Law Enforcement candidates who have a DUI, fleeing or eluding a police officer, or license suspension based on accrual of points **may not** be hired. Candidates with more than two moving violations (i.e. speeding tickets) in the previous three years are doubtful in terms of employment.

- ✓ Submission of a medical examination (at recruit's expense/part of application).

- ✓ Completion of an individual oral interview in which each applicant will be asked an identical series of questions by a panel of interviewers. Each interviewer will score the applicant on a scale of one to ten based on clarity, thoughtfulness, and completeness of answers.
- ✓ Successfully complete the Physical Entrance Test (PAT).

Final admission to the program will be based on the following:

- ✓ Obtain a satisfactory drug screen analysis at the designated laboratory **and**
- ✓ Have an FDLE background clearance completed at Institute of Public Safety **and**

The final selection of applicants is arrived at by the process of considering CJBAT scores, oral interview, Obstacle Course, and testing. Once the drug screen analysis and FDLE criminal history clearance process is satisfactorily completed, applicants are then allocated class openings, beginning with the highest score.

Returning Recruits

Recruits who exited or failed out of the academy in good standing and who want to return must enroll and attend the next sequential class. The recruit must meet with the program coordinator prior to enrollment. Recruits will not be required to complete the interview process and will receive credit for courses they have successfully completed.

After two consecutive unsuccessful tries to complete the academy, the recruit must re-apply through the complete application process, i.e. interview, PAT, physical test, and complete the entire academy; all cases will be at the discretion of the Academy Director.

Transfer Recruits

Transfer recruits will be enrolled in appropriate courses in accordance with CJSTC policies and procedures.

Recruits wishing to transfer to/from another training school to complete courses may do so as long as they maintain the status of “good standing” with this/or their previous training center. For this purpose, “good standing” is defined as a recruit being eligible to continue at the previous training school without any special considerations.

Recruits that require more than one course to complete the academy must meet with the Lake Tech Academy Director for approval on a case by case basis.

Recruits with less than 50% of the course completed must satisfy all admission criteria required by the school and the Law Enforcement/Corrections program.

Special Note Regarding Test Procedures

Scores such as CJBAT and Psychological can be held valid for a maximum of four years. Other testing may be required to be completed again. Determination of which testing will be required of returning students will be at the discretion of the Academy Director. Any recruit who has failed the psychological examination (see “final admission” above) may re-take the examination with the next upcoming testing date set forth for the next available recruit class.

FINANCIAL AID OFFICE

Policies and guidelines for the administration of all financial aid are established according to federal and state law. Applicants complete an information form, Free Application for Federal Student Aid, and furnish documentation needed to verify eligibility. STANDARDS AND REQUIREMENTS OVERVIEW

Objectives: To provide the means of developing the basic public safety skills required by the Criminal Justice Standards and Training Commission and the LTC Institute of Public Safety.

Purpose: The guidelines are established in order to maintain a high level of discipline, provide for the most efficient use of training time, and ensure that each Institute of Public Safety recruit thoroughly understands what is required of him/her.

Curriculum: The Criminal Justice Standards and Training Commission set the standards and numbers of hours of required training for correctional and law enforcement certification as well as for correctional probation officers. The LTC Institute of Public Safety requires the highest standards of excellent performance. We give more to the recruit in way of instruction and expect more from them in skill and academic performance.

College Credits: The Lake Technical College Institute of Public Safety does not award college credits for training. However, the LTC has an articulation agreement with St Petersburg College in St. Petersburg, FL which provides for the awarding of college credits based on successful completion of the Institute of Public Safety recruit programs. In addition, statewide articulation agreements exist which provide for the awarding of college credit at other state and/or community colleges in the State of Florida.

Veterans Approved Course: The State Department of Education approves the Lake Technical College Institute of Public Safety for training for veterans. All veterans who are eligible for VA benefits may receive compensation for enrollment in basic classes. The Financial Aid Coordinator for our campus is located in the Financial Aid Office at Lake Technical College, at 2001 Kurt St. in Eustis, FL, telephone 352.589.2250, x 1830.

ACCOMMODATIONS

Federal and state legislation requires the provision of accommodations for students with disabilities as identified on the secondary student's IEP or 504 plan or postsecondary student's accommodations plan to meet individual needs to ensure equal access. Postsecondary students with disabilities must self-identify, present documentation, request accommodations if needed, and develop a plan with their postsecondary provider.

Students desiring accommodations or updates to their accommodations are encouraged to self-identify as early in the program as possible. In order to receive disability accommodations, students must self-disclose the disability to the Students with Disabilities Coordinator and provide documentation that clearly shows evidence of a disability and applicable accommodations. The Students with Disabilities Coordinator will schedule a meeting with the student and faculty to discuss the documented disability and applicable accommodations.

Accommodations received in postsecondary education may differ from those received in secondary education. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments, assessments, time demands, schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodation requested and provided is maintained in a confidential file.

ONLINE ACCESS

Technology is an integral part of our daily lives. From smart phones to electronic tablets, these devices are becoming items that many cannot function without. In addition, the Internet is changing the way education is delivered. Lake Technical College strives to ensure that our students are able to compete in this technology driven world. With this in

mind, it is recommended that students have an online presence and access to the internet. LTC campus computer labs are available to those without this access. Please let your faculty know if you need to use the campus computer labs, and scheduling information will be provided to you.

It is also important that students have an email address that they check on a regular basis. A lot of information may come to you through your email, so it is important that you check it regularly. If you do not have an email address, there are numerous services that provide FREE email addresses. Please make sure your faculty have a current, working email address for you. See your faculty for more information.

SOCIAL MEDIA

The advent of social media has created a world-wide communication medium for persons of all ages. While extremely popular, these websites have also created their own set of “not-so-popular” problems such as cyber-stalking, identity theft, cyber-bullying, cyber-cheating (posting of exam, or other course material), and a host of other nebulous challenges that users may face. Another reality associated with social media is its far-reaching consequences for those who share posts that may be seen by others as inappropriate.

Potential employers, current employers, civic, or educational organizations you may be associated with, and many others are looking at social media sites for information that may tell them things about an individual. Students should also be cautioned on how private their social media content really is – despite the settings on an account. All social media sites are potentially vulnerable. A simple search of how to view pages that are set as “private” for a popular social media website yielded numerous responses for ways to view the content. Everything from blogs to online videos offer to explain how to accomplish this task.

Students in all programs need to be cognizant of the fact that most professions rely on great moral character. It is recommended that when using social media, assume that all posts will be seen/read by everyone with access to the internet.

GRADING POLICIES

In accordance with CJSTC Rule 11B-35, a recruit shall successfully complete all end-of-course examinations in order to pass the Basic Recruit Training Program.

To pass an end of the course examination (chapter/block), a recruit must achieve a score of no less than 80%.

There are two types of examination: 1) A cognitive end-of-course examination is required at the completion of each course block. 2) A demonstration of high-liability proficiency skills is required in each of the four Commission-designated high-liability courses (firearms, vehicle operations, defensive tactics and first aid).

Cognitive, Written Examinations

In accordance with CJSTC Rule 11B-35.001(12)(a), a recruit who has failed a cognitive end-of-course examination may be granted a re-examination by the Academy Director if:

1. There is a technical difficulty in the administration of the test.
2. A condition of the recruit adversely impacts the recruit's ability to pass the test.
3. The end-of-course testing instrument is shown to be invalid.

The following conditions must be met to qualify for a re-examination:

- ✓ Recruit's claims of an invalid examination or examination question must be made in writing no later than the end of the next business day and must be specific.
- ✓ Under the second condition above, the recruit must notify the examination proctor or staff member **PRIOR TO** administration of the examination.
- ✓ Only the academy director is authorized to approve requests for re-examinations. The academy director's decision is final.

Also, in accordance with CJSTC Rule 11B-35.001(12)(b), a recruit may be granted **ONE** course cognitive re-examination during the duration of a single Basic Recruit Training Program. This policy is not withstanding of the Rule in (a) (*above*) and exclusive of the Rule in (c) (*below*) for high-liability training courses.

- ✗ Coordinator will reschedule the retest exam within 5 school days. A recruit who fails one block examination and re-examination is deemed to have failed the block. Upon failing a second block examination, the recruit will not be afforded another re-examination. The recruit will be withdraw from the program if an 80% average is not met or maintained after the 3rd exam.

- ✓ If a recruit exits the program due to failure of an examination under this policy, such an exit will be considered in good standing per CJSTC Rule 11B-35. The recruit may re-enroll in at the next sequential class or enroll in another academy training program with credit for courses successful completed.

High-Liability Proficiency Examinations

In accordance with CJSTC Rule 11B-35, a recruit shall be granted one additional attempt at the required demonstration of high-liability proficiency skills **OR** one re-examination of required cognitive knowledge (**but not BOTH**) in each of the Commission-required high-liability training areas.

Recruits who fail to demonstrate required cognitive knowledge or demonstration of high-liability proficiency skills after a second attempt shall be deemed to have failed the high-liability training course.

General Points about Grading – Academic Probation

- ✓ Upon failure of the initial administration of any end-of-course examination, the recruit and his/her sponsoring agency, if any, shall be notified in writing that the recruit is being placed on Academic Probation and that the recruit is required to retake the examination.
- ✓ If a student fails any end of course exam, he/she will be required to meet with the LTC Student Success counselor as part of the academic probation process. The program coordinator will advise each student of the procedure to contact the Student Success Counselor. If a student fails any exam, he/she will be required to attend these study sessions as part of the academic probation process.
- ✓ A passing grade will be recorded as 80% regardless of actual score achieved on the re-examination. This is equivalent to receiving a grade of "Pass".
- ✓ All courses must be successfully completed before receiving the end-of-program certificate. The recruit, therefore, will not receive the end-of-program certificate until he/she has retaken and passed any course failed. An end-of-program certificate must be received before the recruit shall be authorized to take the state examination.

Follow Up

Lake Technical College is proud of its graduates and celebrates the next step graduates take whether it is employment, military or further education. Prior to completing, students may visit the Career Success Center for assistance with employability skills such as resume writing. In addition, faculty may provide students with employment leads. However, it is up to the individual student to actively pursue employment opportunities. We like to hear how our graduates are doing and want to celebrate your successes so be sure to communicate with your faculty any employment, military, or further education you enter. Students are required to participate in an Exit Interview prior to their last day in their program.

High Liability Training

High liability training involves the four areas of Weapons, Defensive Tactics, Vehicle Operations and First Responder. Additionally, the Physical Fitness Program is extremely important as it relates to the physical abilities necessary to successfully complete the high liability competencies.

Students may appeal this decision by following the appeal/grievance procedure listed in the catalog.
- ✓ It is the recruit's responsibility to obtain any missed material or assignments.
- ✓ All recruits will participate in the practical skills and physical training activities offered each day.

Due to the hazardous nature of the training, students involved in a gross safety violation that may result in injury to other students or instructional staff may be dismissed from the program **IMMEDIATELY** upon documentation of such acts.

TEACHING METHODS

The lecture and seminar methods of instruction supplemented by audio/visual aids are employed for that portion of the program that deals with knowledge factors.

In the hours that deal with practical skills, the recruit will:
