

CORPORATE AND COMMUNITY TRAINING

LAKETECH

Lake Technical College

Instructor, Mike Nixon of
FLC Machines

SHORT TERM TRAINING

WHAT IS SOLIDWORKS?:

SolidWorks is a solid-model CAD (computer-aided design) software used in many industries to create 3-dimensional (3D) models.

LEARN FROM AN EXPERT:

30+ years of experience designing dies, fixtures, parts, and equipment. 9 years as an adjunct instructor teaching CAD-related courses and SolidWorks.

GAIN HANDS-ON EXPERIENCE:

Students will learn the basics of SolidWorks and skills that will prepare them for the Certified SolidWorks Associate (CSWA) exam. Exam cost not included in the fee or required for the course.

HIGH SCHOOL STUDENTS ARE
WELCOME TO ATTEND

INTRO TO SOLIDWORKS

April 23 - May 30, 2019 (6 Weeks)

Tuesdays & Thursdays, 5:30 - 8:30 pm

Cost: \$210

In this hands-on course students will learn the fundamental skills and concepts needed to build parametric models of parts and assemblies. Students will also learn how to make simple drawings of these parts and assemblies. 3D printers will be available to print select parts. USB flash drive is recommended.

Prerequisites: Basic computer skills, general knowledge of Microsoft Windows, and the ability to visualize objects in 3D.

Classes will be held at the main campus:

2001 Kurt Street, Eustis, FL.

**PLEASE REGISTER EARLY. PAYMENT IS DUE BY
TUESDAY, APRIL 16, 2019.**
